Envision Arts Youth Art Program Established 2010

The Youth Art Program was initially launched in 2009 to provide an art component to the stories children were reading in Envision's Eyes for Others reading program. In 2010, a year-round after-school art club was established. Today, children from Wichita and the surrounding communities travel to Envision Arts each week to explore, engage and connect with peers, mentors and their wild imaginations. Despite having vision loss, this group of kids are as curious about the world around them as any other child with sight.

"I LOVE art class, I can't wait to see my friends and make cool projects!"

- Sydney Parcel – Age 11
