

Does the patient have a low vision diagnosis?

NO

Refer to Donald Fletcher, MD, LLC:

- When seeking low vision diagnosis
- When vision cannot be corrected by medicine, surgery or standard eyeglasses/contact lenses
- When trying to maintain or restore independence lost due to vision loss

YES

Refer to the Envision Vision Rehabilitation Center (EVRC) when:

- When already has a low vision diagnosis (i.e. AMD, PDR, etc.)
- Best corrected visual acuity of 20/70 or worse in better seeing eye **OR**
- Central blind spot **OR**
- Visual field deficit:
 - Post stroke or brain injury with normal acuity but field loss
 - Reduced visual field from glaucoma, retinitis pigmentosa or macular degeneration

Here is How

FAX a completed Low Vision Consultation Form to 316-440-1695 along with the most recent visit notes

EVRC staff will call to schedule the patient and complete the intake

Dr. Fletcher, MD, will make further referrals to EVRC as needed as well as sign off on all required documentation

FAX a completed Envision Physician Referral Form to 316-440-1675 with the most recent visit notes

EVRC staff will call to schedule the patient and complete the intake

Referring physician must sign off on evaluation, changes to treatment plans, and write prescriptions for magnifiers/equipment
